

Free Shovel For Solar Data Mining

Every SolarVu energy portal keeps measured system data for the lifetime of the site. Customers with multiple SolarVu sites can use a SMART Enterprise account to view alarm status, compare readings and totalize output of a complete portfolio from one screen. With a single login, navigate to any site for more details.

To make it easier to create reports for any time period, a new Range calendar and quick date selection navigation features have been added. Now you can prepare detailed custom reports guickly for any time period to match monthly payments or reporting period of interest.

If you have not been using a SMART Enterprise account to manage your SolarVu portfolio of sites, send us a request to set up an account at <u>contactus@cachelan.com</u> - it's free to SolarVu customers.
